A WORD FROM PRESIDENT TONY MONLEY

Last week we heard from Graham Peck, from the Leprosy Mission Australia <http://www.leprosymission.org.au/Home.aspx>.

Like most members, I love listening to a speaker who is passionate about his topic. Graham was certainly that. He shattered many myths around leprosy and left us much better informed. The Board will certainly be considering a donation to this most worthy cause at the next Board Meeting.

The Rotaract interest meeting held immediately after last week's meeting was a great success. 10 prospective members turned up, greeted by Rotarians from three of the clubs in the cluster and a number of current Rotaractors.

After several presentations, the prospectives were left with the Rotaractors to negotiate next steps. The formation of the Rotaract club will be a gradual process, which we are committed to seeing through.

At time of writing, I've just returned home from another successful Rotary Club of Templestowe Farmers Produce Market. Pete advised that while the numbers for the day were down, the amount of produce going out the gate seemed to be up so I'm sure most of the stall holders were happy. This was the first month of the new roster system and it seemed to work ok. The use of only one trailer slowed us down a little however, we managed to get everything done in full and on time. There were several "no shows" which was disappointing. If you are rostered on, be fair to your mates and either show up, get a substitute or make an apology. We know of a couple of members who have other regular commitments that preclude them from helping on Sunday mornings. That's ok – just let the committee know and they'll manage the roster accordingly.

Continued from Page 1.

Early this week, prior to this meeting, several of us, together with representatives of the Doncaster Rotary Club will have met with Doncare to start scoping out the Christmas hamper project. The intent is for Rotary to take over management of the preparation and distribution of Christmas hampers to disadvantaged families, allowing the Doncare staff to focus on their core purpose and duties.

Please keep in mind that on August 11th, we will be holding another new member interest meeting – a concept successfully pioneered by Graham Kane last year. If you have any potential guests or leads, please let me know as soon as possible so we can lock in their attendance.

At this week's meeting we will have our partners from the auction, Ray White Real Estate and Silver Star Motors Doncaster, together with their nominated charities, Camp Quality and Diabetes Australia, along to receive cheques for the funds raised at the auction. It is great to see a partnership with local businesses growing – it leverages our community service work so much. Please make our guests welcome and help build on these partnerships.

Tony Monley.

LAST WEEK'S SPEAKER— GRAHAM PECK

"He is a leprous man, he is unclean,"
says Chapter 13 of Leviticus.

A street in the slums of Kolkata, India. The Leprosy Mission is working to educate and improve their quality of life.

Throughout the ages, leprosy has been looked upon with contempt and horror. The Bible enjoins lepers to "dwell alone," wear torn clothing and cry out "Unclean, unclean." In the Middle Ages lepers were barred from public buildings, forbidden to speak with children and required to sound a bell or clapper. The very word leper came to mean outcast.

Yet the stigma of leprosy is based largely on misunderstanding. The use of the term leprosy in the Bible was the result of translation errors; eczema or psoriasis would be more accurate. Furthermore, leprosy, also known as Hansen's disease after the doctor who discovered the bacterium that causes it, is not very contagious. About 95% of the world's population seems to be immune, and even those who are susceptible are at risk only after long-term exposure to an active case.

Another misunderstanding lingers: that leprosy is a thing of the past. The fact is, leprosy is not disappearing. There are now at least 11 million cases in the world.

Most are in the tropical regions of Africa, Latin America and southern Asia.

OUR EXCHANGE STUDENT
 RAHEL (RACHEL)RUETHER
 ARRIVED ON THE
 26TH JULY AND WAS MET AT
 TULLAMARINE AIRPORT BY

PRESIDENT TONY MONLEY AND
 SEVERAL REPRESENTATIVES FROM THE DISTRICT
 YOUTH EXCHANGE TEAM.

Rahel comes from Paderborn, Germany, situated at the spring of the Pader River. Paderborn was founded as a [bishopric](#) by [Charlemagne](#) in 795. In 799 [Pope Leo III](#) fled his enemies in [Rome](#) and reached Paderborn, where he met Charlemagne. Charlemagne reinstated Leo in Rome in 800 and was crowned as [Holy Roman Emperor](#) by Leo in return. The bishop of Paderborn became a [Prince of the Empire](#) in 1100. The city was taken by [Prussia](#) in 1802, then by the [French vassal state Kingdom of Westphalia](#) from 1807 to 1813 and then returned to Prussia. Paderborn was the seat of the [Bishopric of Paderborn](#); today it is the seat of a Roman Catholic [archbishop](#). Paderborn has a population of over 144,000, of which approximately 10% are students at the local [university](#). Additionally, about 10,000 members or relatives of members of the [British armed forces](#) live in Paderborn, but are not included in the nominal population size.

**WELCOME
 TO THE ROTARY CLUB OF TEMPLESTOWE RAHEL!!!**

Rotary District 9810

Six Steps to being an Effective Leader

Leadership

Leadership is the ability to get people to do what needs to be done, in the way that it needs to be done, **by inspiring** others to follow and achieve agreed goals, **because they want to do it** and so become more effective club members.

How ?

By using our Rotary District Ideals

How will it be beneficial to all concerned?

By seeking and developing members ideas wherever possible through offering support, without taking away members responsibility.
By providing recognition through positive feedback so building self-esteem.

How will it build good will and better friendships?

By listening to differences of opinion, responding with empathy and fairness.
By following through on the commitments we have made to Club and District responsibilities.

How is it fair to all concerned?

By considering the impact on others of what you say and do.
By showing respect for each other as valued members of our Club.

How is it the truth?

By being open and considerate in all your communications.
By making sure your actions back up your words.

Ethics

Support and promote actions that are consistent with Rotary club ideals and goals by ensuring appropriate interaction to enhance a positive club and fun culture.

The Goulburn/Murray River System needs your help...

ROTARY ENVIRONMENTAL PLANTING SCHEME

Come and help us make a difference in reducing the 'salinity problem' in the Goulburn/Murray River system by helping plant around 9000 trees on 4 sites in the Glenaroua-Broadford district. This will increase the area's ability to recover the bio-diversity capacity to restart the natural environmental cycle.

In normal conditions, 30 tonnes of salt per square kilometre leave this area annually. The REPS Program aims to reduce the salinity at the source, where the rainwater enters the soil, absorbs the salt and carries it into the creeks and streams that feed the rivers and also the artesian storage, contributing to the devastation existing in and around Goulburn/Murray River system.

ROTARY CONFERENCE—URGENT Enrolments close 31 July 2010

A Conference open to all Australian Rotarians aimed at strengthening Rotary and especially Rotary Clubs will be held in Canberra on 21st and 22nd August 2010. Rotary International President Ray Klinginsmith has confirmed his intention to attend and Rotary International Director Stuart Heal will convene the Conference.

Rotarians at club level are particularly invited, and are encouraged to bring along new Rotarians, as they can bring new ideas to Rotary.

A minimum number of speakers will introduce topics, and maximum time will be made available for facilitated discussion. Costs are to be kept to as low as possible to keep the conference affordable.

The venue will be the Hellenic Club in Woden, ACT. PDG Bob Greeney, of the Rotary Club of Belconnen, has accepted the role of Chair of the organising committee. Put the date in your Diary now—

Enquiries—Rob Wylie—robwy43@bigpond.net.au (or speak to Tony Monley)

National Youth Science Forum

NYSF is a joint initiative of a number of Rotary Clubs and a large number of scientific institutions around Australia. The purpose is to introduce the scientist of the future to Australia's most distinguished scientist of the present and allow them to participate in open and group discussions.

Candidates for the forum are year 11 students who have shown outstanding potential in the field of science. Our club has nominated 2 students to attend the forum;

Matthew Harris from Templestowe College who hopes to have a career in the scientific field maybe engineering.

Jocelyn Shan from P.L.C. who hopes to have a career in medicine.

The 3 forums being held this Rotary year are;

January 3-15 in Canberra

January 10-22 in Perth

January 17-29 Canberra.

We wish Mathew and Jocelyn the very best with their applications.

Trevor Dawson Youth Director 2010/2011.

WHAT'S ON THIS WEEK?

Lyn and Robyn Connor from Camp Quality and Jenny Davidson from Diabetes Australia will be telling us a bit about the organisations they represent and will receive a cheque for their organisation's share of the proceeds of the Auction and Trivia night.

Representatives from our auction/trivia night "Partners" will also be at our meeting—they made a large contribution to the night in both attendance numbers and goods purchased. Many thanks to Ray White Real Estate and Silver Star Motors Doncaster for their support. Please make them very welcome on Wednesday night.
